6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Record a Manual Check (CH) has been completed and submitted according to standard Advantage 4 procedures.

Run and Review Disbursement Register

Objective: Complete the transaction: Run and Review Disbursement Register.

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Run and Review Disbursement Register has been completed and submitted according to standard Advantage 4 procedures.

Resolve a Disbursement Error

Objective: Complete the transaction: Resolve a Disbursement Error.

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Resolve a Disbursement Error has been completed and submitted according to standard Advantage 4 procedures.

Enter a Receivable (RE)

Objective: Complete the transaction: Enter a Receivable (RE).

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.

5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Enter a Receivable (RE) has been completed and submitted according to standard Advantage 4 procedures.

Adjust a Receivable Entry (RE)

Objective: Complete the transaction: Adjust a Receivable Entry (RE).

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Adjust a Receivable Entry (RE) has been completed and submitted according to standard Advantage 4 procedures.

Apply Payment to RE (CR)

Objective: Complete the transaction: Apply Payment to RE (CR).

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Apply Payment to RE (CR) has been completed and submitted according to standard Advantage 4 procedures.

Issue Refund for Overpayment (CRAD)

Objective: Complete the transaction: Issue Refund for Overpayment (CRAD).

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Issue Refund for Overpayment (CRAD) has been completed and submitted according to standard Advantage 4 procedures.

Write Off Uncollectible RE

Objective: Complete the transaction: Write Off Uncollectible RE.

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Write Off Uncollectible RE has been completed and submitted according to standard Advantage 4 procedures.

Create a Purchase Requisition (RQ)

Objective: Complete the transaction: Create a Purchase Requisition (RQ).

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Create a Purchase Requisition (RQ) has been completed and submitted according to standard Advantage 4 procedures.

Convert RQ to Purchase Order (PO)

Objective: Complete the transaction: Convert RQ to Purchase Order (PO).

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Convert RQ to Purchase Order (PO) has been completed and submitted according to standard Advantage 4 procedures.

Amend a Purchase Order (POCN)

Objective: Complete the transaction: Amend a Purchase Order (POCN).

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Amend a Purchase Order (POCN) has been completed and submitted according to standard Advantage 4 procedures.

Close a Purchase Order (POCL)

Objective: Complete the transaction: Close a Purchase Order (POCL).

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Close a Purchase Order (POCL) has been completed and submitted according to standard Advantage 4 procedures.

Process a Contract Entry (CT)

Objective: Complete the transaction: Process a Contract Entry (CT).

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.

5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Process a Contract Entry (CT) has been completed and submitted according to standard Advantage 4 procedures.

Enter an Invoice Encumbrance (IENC)

Objective: Complete the transaction: Enter an Invoice Encumbrance (IENC).

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Enter an Invoice Encumbrance (IENC) has been completed and submitted according to standard Advantage 4 procedures.

Process Internal Transfer In (ITI)

Objective: Complete the transaction: Process Internal Transfer In (ITI).

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Process Internal Transfer In (ITI) has been completed and submitted according to standard Advantage 4 procedures.

Process Internal Transfer Adjustment (ITA)

Objective: Complete the transaction: Process Internal Transfer Adjustment (ITA).

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Process Internal Transfer Adjustment (ITA) has been completed and submitted according to standard Advantage 4 procedures.

Create a Journal Entry (JEV)

Objective: Complete the transaction: Create a Journal Entry (JEV).

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Create a Journal Entry (JEV) has been completed and submitted according to standard Advantage 4 procedures.

Reverse or Adjust a JEV

Objective: Complete the transaction: Reverse or Adjust a JEV.

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Reverse or Adjust a JEV has been completed and submitted according to standard Advantage 4 procedures.

Process a Budget Control Document (BGCN)

Objective: Complete the transaction: Process a Budget Control Document (BGCN).

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Process a Budget Control Document (BGCN) has been completed and submitted according to standard Advantage 4 procedures.

Create a Budget Line Adjustment (LDA)

Objective: Complete the transaction: Create a Budget Line Adjustment (LDA).

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Create a Budget Line Adjustment (LDA) has been completed and submitted according to standard Advantage 4 procedures.

Submit a LDA for Approval

Objective: Complete the transaction: Submit a LDA for Approval.

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Submit a LDA for Approval has been completed and submitted according to standard Advantage 4 procedures.

Perform a Budget Pre-Encumbrance (LDPR)

Objective: Complete the transaction: Perform a Budget Pre-Encumbrance (LDPR).

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.

5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Perform a Budget Pre-Encumbrance (LDPR) has been completed and submitted according to standard Advantage 4 procedures.

Process Budget Control Roll-Up (BGCN)

Objective: Complete the transaction: Process Budget Control Roll-Up (BGCN).

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Process Budget Control Roll-Up (BGCN) has been completed and submitted according to standard Advantage 4 procedures.

Perform Budget Forecast Adjustments

Objective: Complete the transaction: Perform Budget Forecast Adjustments.

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Perform Budget Forecast Adjustments has been completed and submitted according to standard Advantage 4 procedures.

Create Local Chart of Accounts Roll Request (LCRR)

Objective: Complete the transaction: Create Local Chart of Accounts Roll Request (LCRR).

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Create Local Chart of Accounts Roll Request (LCRR) has been completed and submitted according to standard Advantage 4 procedures.

Review and Submit Budget to Legislature

Objective: Complete the transaction: Review and Submit Budget to Legislature.

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Review and Submit Budget to Legislature has been completed and submitted according to standard Advantage 4 procedures.

Create a Grant Award (GRA)

Objective: Complete the transaction: Create a Grant Award (GRA).

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Create a Grant Award (GRA) has been completed and submitted according to standard Advantage 4 procedures.

Link Grant to Chart of Accounts

Objective: Complete the transaction: Link Grant to Chart of Accounts.

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Link Grant to Chart of Accounts has been completed and submitted according to standard Advantage 4 procedures.

Submit a Drawdown Request (GRDR)

Objective: Complete the transaction: Submit a Drawdown Request (GRDR).

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Submit a Drawdown Request (GRDR) has been completed and submitted according to standard Advantage 4 procedures.

Approve or Reject GRDR

Objective: Complete the transaction: Approve or Reject GRDR.

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Approve or Reject GRDR has been completed and submitted according to standard Advantage 4 procedures.

Track Grant Spending via Report

Objective: Complete the transaction: Track Grant Spending via Report.

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.

5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Track Grant Spending via Report has been completed and submitted according to standard Advantage 4 procedures.

Close a Grant Award (GRCL)

Objective: Complete the transaction: Close a Grant Award (GRCL).

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Close a Grant Award (GRCL) has been completed and submitted according to standard Advantage 4 procedures.

Submit a Personnel Action Request (PAR)

Objective: Complete the transaction: Submit a Personnel Action Request (PAR).

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Submit a Personnel Action Request (PAR) has been completed and submitted according to standard Advantage 4 procedures.

Approve a PAR

Objective: Complete the transaction: Approve a PAR.

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Approve a PAR has been completed and submitted according to standard Advantage 4 procedures.

Create New Position (POS)

Objective: Complete the transaction: Create New Position (POS).

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Create New Position (POS) has been completed and submitted according to standard Advantage 4 procedures.

Enter Payroll Adjustment (PYADJ)

Objective: Complete the transaction: Enter Payroll Adjustment (PYADJ).

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Enter Payroll Adjustment (PYADJ) has been completed and submitted according to standard Advantage 4 procedures.

Process Off-Cycle Pay (PYOF)

Objective: Complete the transaction: Process Off-Cycle Pay (PYOF).

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Process Off-Cycle Pay (PYOF) has been completed and submitted according to standard Advantage 4 procedures.

Generate Payroll Register

Objective: Complete the transaction: Generate Payroll Register.

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Generate Payroll Register has been completed and submitted according to standard Advantage 4 procedures.

Enroll Employee in Benefit Plan

Objective: Complete the transaction: Enroll Employee in Benefit Plan.

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Enroll Employee in Benefit Plan has been completed and submitted according to standard Advantage 4 procedures.

Update Deduction Codes

Objective: Complete the transaction: Update Deduction Codes.

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.

5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Update Deduction Codes has been completed and submitted according to standard Advantage 4 procedures.

Vendor Registers through VSS

Objective: Complete the transaction: Vendor Registers through VSS.

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Vendor Registers through VSS has been completed and submitted according to standard Advantage 4 procedures.

Update Vendor Banking Info

Objective: Complete the transaction: Update Vendor Banking Info.

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Update Vendor Banking Info has been completed and submitted according to standard Advantage 4 procedures.

View VSS Payment History

Objective: Complete the transaction: View VSS Payment History.

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction View VSS Payment History has been completed and submitted according to standard Advantage 4 procedures.

Submit a Bid via VSS

Objective: Complete the transaction: Submit a Bid via VSS.

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Submit a Bid via VSS has been completed and submitted according to standard Advantage 4 procedures.

Upload Compliance Documents

Objective: Complete the transaction: Upload Compliance Documents.

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
6. Resolve any issues flagged by the system.
7. Submit the document for approval or finalization.

Cautionary Note: Ensure all chart of accounts codes are accurate before submission.

Summary: The transaction Upload Compliance Documents has been completed and submitted according to standard Advantage 4 procedures.

Navigate Advantage 4 Home & Modules

Objective: Complete the transaction: Navigate Advantage 4 Home & Modules.

Steps to Complete the Transaction:

1. Access the relevant module from the main menu.
2. Select 'Create New Document' or locate the existing one.
3. Fill in required document header fields.
4. Add necessary line items or accounting entries.
5. Validate the document for errors.
